ABOUT ME

I'm Dheyan, a developer who believes in the power of playful design. My background in creating engaging UIs means I don't just write code, I craft delightful user experiences. If an app isn't fun to use, I haven't done my job! I specialize in the frontend ecosystem but I'm truly passionate about modern tools like React and Tailwind CSS, allowing me to build lightning-fast, aesthetically pleasing interfaces quickly..

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, HTML5, CSS3

Frameworks/Libraries: React, Next.js, Node.js, Express.js

Styling: Tailwind CSS, Bootstrap, Styled Components

Databases: MySQL, PostgreSQL

Tools/Concepts: Git/GitHub, REST APIs, Object-Oriented Programming (OOP), CPU Scheduling Algorithms, System Architecture

PORTFOLIO PROJECTS

FCFS Scheduling Simulator (First-Come, First-Served)

- A web application that visually demonstrates the **First-Come, First-Served (FCFS)** CPU scheduling algorithm.
- Features: Clear visualization of process execution order, real-time calculation of Waiting Time and Turnaround Time, and an intuitive interface for adding and managing processes.
- Technologies: React, Next.js, JavaScript.

Bisakol E-commerce Shop

- A simple e-commerce site mock-up focused on a modern shopping experience.
- Features: User authentication, product catalog, search and filter functionality, and a dynamic shopping cart with a simple checkout process.
- Technologies: React, Next.js, Context API (or Redux), CSS Modules/Tailwind CSS.

EXPERIENCE

Web Development Projects

• Developed multiple web applications using React and Next.js, focusing on clean UI and efficient performance.
• Built interactive tools such as a CPU Scheduling Simulator and other frontend-focused projects.
• Applied responsive design principles and modern JavaScript practices.

Collaborative Coursework

• Completed team-based projects that involved planning, designing, and implementing web solutions.
• Responsible for UI/UX design, component structuring, and frontend optimization.
• Practiced Agile-like workflows, documentation, and version control with Git.

EDUCATION

Eelementary: Day-as, Elementary School

Secondary: Cordova Catholic Cooperative School

Tersiary: Cordova Public College
